

VICTORIA COLLEGE PREP SCHOOL

Healthy Places, Healthy Children

WHAT IS THE IDEA ?

- On our local walk we discovered some graffiti in our community.
- Due to the graffiti being on a residential property we were unable to do anything about this.
- So we decided to have a look at our school grounds and see what we could change.
- As our grass area is very mucky and slippery most of the year , we decided artificial grass would be beneficial.

WHY IS IT NEEDED ?

- ◉ In order to minimise health and safety risks, artificial grass would be a safer option.
- ◉ Our playtime will be enhanced for all pupils as we will have more play areas.
- ◉ We will be able to enjoy our playground all year round.

HOW WILL IT BENEFIT LOCAL CHILDREN?

Artificial grass will encourage younger children to use the play equipment on the grass.

- ◉ We will be able to use our new grass area for sports day.
- ◉ This new area will be a valuable space for PE lessons.
- ◉ Pupils in the foundation stage can use this area for outdoor play lessons.

WHAT IS THE DESIGN?
